COBBLEVERSE

Last updated: February 18, 2026

This document contains a comprehensive list of third-party software (mods, APIs, libraries, shaders, assets, etc.) included in this Minecraft modpack, along with their respective licenses and source links.

All licensing information has been gathered from official sources such as **Modrinth**, GitHub repositories, and other publicly available documentation. Every effort has been made to ensure the accuracy and completeness of this information at the time of writing. If any data is found to be outdated or inaccurate, we welcome updates from the original authors.

Please note: inclusion in this list does not imply ownership, authorship, endorsement, or affiliation with any of the listed projects.

DISTRIBUTION

The full version of this modpack is exclusively distributed through Modrinth. This ensures that all original authors receive proper attribution and that download counts are accurately recorded, respecting the rights and efforts of the creators.

By utilizing this modpack, users acknowledge and agree to obtain the software exclusively from the official source and to respect the intellectual property rights and licensing terms of all included third-party components.

INCLUSION OF ALL RIGHTS RESERVED CONTENT

Some third-party content listed in this document is licensed under All Rights Reserved (ARR). These components are not bundled directly within the distributed modpack files, instead, they are included exclusively as dependencies via Modrinth.

In accordance with Modrinth's policy, uploading a mod to Modrinth grants Modrinth users permission to use the hosted file in Modrinth modpacks.
Therefore, the ARR content referenced herein is sourced from and hosted by Modrinth, and its inclusion in this modpack is fully compliant with both the licensing terms and Modrinth's usage rights.

Should any content author have concerns or require further clarification, please contact us so we may promptly address the matter in good faith.

CONTACT INFORMATION

If you are a mod author, license holder, or rights holder and wish to request a correction, clarification, or removal of any entry, please contact us through one of the following channels:

- Website: https://www.lumyverse.com/contatti
- Discord: https://discord.lumy.fun — open a Ticket in the appropriate support channel.

We are committed to addressing all concerns in a timely and respectful manner.

DISCLAIMER

This document is provided in good faith and is intended solely to aid in compliance with third-party software licenses. It does not constitute legal advice.

The modpack as a whole, including configuration files, branding, original assets, and the curated selection of included contents, is distributed under an All Rights Reserved (ARR) license.

For legal concerns or questions regarding the terms of specific licenses, please refer to the official license texts or consult qualified legal counsel.

We thank all Minecraft community contributors whose work made this project possible.
